Dear Parent,

In the day to day operation of the school, it seems like there is nothing we deal with on a more regular basis than the uniform policy. It is a constant issue with making sure students are in the right shoes, reminding little boys to wear their belts, making sure each student has a tie on Friday, or dealing with a little girl's jumper being too short because she has grown. It is such a blessing in dealing with this to have parents that are understanding, and are quick to correct things when it is brought to their attention.

There is one issue that has come up a few times in the last little while that we need to deal with; girls hair accessories. In our Student handbook it says, "Hair bows and barrettes must be conservative and match the school uniform." When in uniform there should be nothing that makes a student stand out. Hair bows must be small, and in school colors. Barrettes and chop sticks should also be in school colors and simple. Please make sure that their hair accessories are not too large, or that they do not have extra decorations such as jewels or beads on them.

If you have any questions whether or not something is acceptable, please ask before sending your student to school in it. Thank you for your understanding and cooperation with this policy.

Sincerely,

Marvin Waddel
Principal
